

# Subaru SAC report

---

Nobunari Kashikawa (NAOJ)

# SAC members (2016.Jul.-)

---

new members

## NAOJ members

- Nobunari Kashikawa (chair)
- Tadayuki Kodama
- Masaomi Tanaka

## Ex-officio

- Masaru Kajisawa (TAC chair)
- Nobuo Arimoto (Director)
- Ikuru Iwata (Deputy director)
- Michitoshi Yoshida (Hiroshima, Observer)

## External members

- Mamoru Doi (Tokyo, IoA, co-chair)
- Gunther Hashinger (UH)
- Masateru Ishiguro (Seoul)
- Mikio Kurita (Kyoto)
- Kyoko Matsushita (Tokyo Science)
- Takashi Miyata (Tokyo, IoA)
- Takashi Murayama (Tohoku)
- Tohru Nagao (Ehime, co-chair)
- Norio Narita (Tokyo)
- Yumiko Oasa (Saitama)
- Issei Yamamura (ISAS)
- Naoki Yasuda (IPMU)

Subaru bag

Telescope aging

Budget cut

day1

- Current status of Subaru
- Maunakea international Observations
- ① Future Instruments and Instrument Plan

day2

- ② Balance between openuse and large programs
- ③ International partnership

day3

- ③ International partnership
- Synergy with space mission

And many exciting science talks!

# Future Instruments and Instrument Plan

---

Day1 pm

## Scope

- We need to carry out Subaru operations with limited resources.

## Goal

- Agreement on updated instrument plan, which includes FOCAS decommission on S18A

# Balance between normal and large programs

Day2 am

Scope

- What is the optimal balance between large surveys and smaller normal science programs?

Goal

- Agreement on SAC proposal to set 40% of science time as the minimum fraction of normal openuse programs.

# International partnership

---

Day2 pm + Day 3 am

## Scope

- With a budget reduction, Subaru is looking for international partners to join Subaru Telescope operations to keep its activity.

## Goal

- Share current status of partnership discussions
- Share ideas with potential partner candidates

# Welcome your comments!
