Welcome to STARS 2

We are currently testing **MASTARS 2 Download** from Japan by querying STARS 2 in Hawaii. Your Download URLs will include Mitaka Japan options. Please continue, test, and comment.

Welcome STARS 2 user!

If you want to download one Proposal ID

1. access MySTARS button at upper left
2. find your proposal from My Proposals, select Query link.
3. choose instrument, select Search button
4. When results are correct, select Store Query button
5. select Last Stored Query (YELLOW link in middle above results table)
6. select Access Data link (in YELLOW tables on right)
7. use download manager like DownThemAll for Firefox to download from directory listings

Follow the YELLOW links to your data!

If you want to query data using search criteria

1. choose Search by
 - ProposalID & Instrument,
 - ProposalID (any instrument), or
 - Observation Date (any instrument)
2. Enter search criteria, click checkbox to apply criteria, press Search button. repeat with new criteria
3. When results are correct, press Store Query button
4. select Last Stored Query (YELLOW link in middle above results table)
5. select Access Data link (in YELLOW tables on right)
6. use download manager like DownThemAll for Firefox to download from directory listings

email submission system (~S11B) are not valid here.

Changes from the last semester :

- (1) If you are **NOT** familiar with LaTeX, please **select** the LaTeX radio button 'no'. The default has been changed to 'yes'.
- (2) Listing your Co-I's email addresses is mandatory.
- (3) You keep staying in the input page after pushing 'Save this proposal temporarily'.
